Profile

Aspiring Web Developer with practical experience in full-stack development, database management, and system design. Proficient in **PHP, JavaScript, MySQL**, and the **Laravel framework**, with demonstrated ability to develop and deploy web applications. Strong foundation in problem-solving, analytical thinking, and collaborative teamwork, honed through academic projects and internship experience.

Internship Experience

March 2025 – May 2025 | Registrar Office | Bestlink College of the Philippines

- Developed a web-based file management system, improving academic document retrieval time and security.
- Assisted in handling student inquiries and managing digital academic records.

Education

2021 – 2025 | Bachelor of Science in Information Technology | Bestlink College of the Philippines College | Major in Information Management

2016 – 2018 | Information and Communication Technology | Bestlink College of the Philippines SHS | Major in Software Development

Skills and Qualifications

Front-end Development	Frameworks & Libraries	Tools & Platforms
<ul style="list-style-type: none">• HTML• CSS• JavaScript	<ul style="list-style-type: none">• Laravel• Bootstrap• Tailwind	<ul style="list-style-type: none">• VCS: Git & GitHub• Database: MySQL & SQLyog• MS Office (Words, Excel, & PowerPoint)
Back-end Development	Programming Languages	
<ul style="list-style-type: none">• PHP• SQL	<ul style="list-style-type: none">• Java• C & C++	

Technical Projects

Capstone/Thesis

- E-Commerce Core Transaction 3: Content Management with Customer Behavior and Trends Analytics

- Developed a web-based application using **Laravel**, implementing the **Model-View-Controller (MVC)** architecture, integrated **Stripe** for payment processing, and implemented role-based access control to manage user permissions.

Internship | Student Document Management System

- Developed a Student Document Management System for the Registrar's Office, restricted to registrar users. Built with **Laravel**, **Livewire**, **Rappasoft** for built-in filtering and search. Deployed locally for lightweight usage.

Personal Project | PLAYPIX APP

- Developed a web-based **video streaming platform** inspired by Netflix, focusing on media handling and UI responsiveness.

Pro bono | MDesserts

- Developed a web-based e-commerce application for MDesserts Shop, implementing features such as **product management** and **order management**.

Seminars

2024 | Information Management in the Digital Age

2024 | Cultivating a Multidisciplinary Research Culture with Artificial Intelligence: Innovation and Impact

2023 | Basic Knowledge with Research Trends from Multidisciplinary Perspective in Engineering, Information and Communication Technology

2023 | Understanding the Innovator's Role in Digital Transformation
